Children's Chapel, Seton Children's Hospital

Baptismal Font

We were asked as liturgical consultants to design the Children's Chapel in the new Seton Children's Hospital.

Working with the Daughters of Charity we developed the space allocated for the chapel. The simple octagonal design of the furniture is appropriate for Mass as well as the many religious groups who will worship in the chapel.

The symbols of hope and love in the stained glass should comfort all who come to pray.
